Letter of recommendation

To Whom It May Concern.

Viacheslav Valerevich Grishanin worked at «Financial Services Agency» LLC in the position of «Senior Software Engineer».

Viacheslav developed and supported the company's applications for Android-based devices, wrote technical documentation, conducted trainings for technical support specialists, participated in presentations for clients, and provided multimedia materials.

We express special gratitude for the development of applications for the Android operating system. Viacheslav implemented the following projects:

- NFP: Social Services»
- «Digital Prescriptions»
- «NFP: Registration»
- «Social Certificates»
- «School tourism»
- Library for reading and writing Mifare cards using Android NFC
- Library for reading bank cards using Android NFC

We are delighted to recommend Viacheslav, a distinguished Software Engineer. His expertise, dedication, and responsibility are truly commendable. He possesses a natural curiosity and an earnest desire to help.

Viacheslav played a pivotal role in development of our software. We would like to note Viacheslav's ability to meet partners demands in the implementation of complex and non-standard tasks, and to promptly offer optimal solutions for the client. During the work of Viacheslav, the company acquired more than 500 new clients - businesses and communities.

The company «FSA» LLC, represented by General Director M.V. Vasiliev, is grateful to V.V. Grishanin for successful and long-term cooperation. Working with Viacheslav was an absolute pleasure. We recommend Viacheslav for work in a similar position, as an outstanding professional in the Software Development field.
